

EDITORIAL OF THE PRESIDENT

A summer rich in event for our race and the club, the summer tests for young Pointer received a frank success and an unexpected participation. A missing crenel which comes to complete our tests of Tan and which seduced the amateurs, allowing them to come to venture on Field Trial. But let us be objective on this subject, these different Trophies are only stages, road to be followed and not a purpose to be reached, otherwise they will eventually disappear. I hope that we shall see again on the grounds of Fields the numerous small miracles which we discovered during these summer Fields for Amateurs. A European Championship on the Mountain has just taken place in the luxurious frame of high Maurienne organized by France, spectacular landscapes and quality level and a Pointer which progresses and which pushes our Pointermen to the optimism.

Pierre Avellan

FOCUS ON...

Mr Albert and his Pointers of Gabelines, breeder fascinated by pointers classified as well in field-trial as in exhibition, representing the club to the Agricultural Competitive examination (CGA) on 2014. Mr Albert " sees there an honor certainly, but especially a quite particular interest to present our race to the general public ".

With Denver of Gabelines in work class and Guapa des Gabelines in national class of breeding. " Muriel Guérin, delegate of the Island of France, which I deeply thank for its help in the preparation, had reserved for me a cage in the best possible angle in front of the arrival of the guests. Here, we have a true communication, directly, with people ".

Representative element of its élevage: Guapa des Gabelines obtains in 2014 several CACS and CACIB in female exhibition, a title of vice-winner of the spring Derby and a title of trialer with CAC. The Pointer seen by Mr Albert: " its style, its power, its speed, its morphology which seems to take out hands of a sculptor, its sweetness and its discretion, make a companion to nobody else similar ".

DELEGATE INTERVIEW

JEAN-MARC BOUHANA, Delegate

of the region Rhone-Alps, can you present yourself ?

I come from a not hunter environment but I was always enticed by the ruralité and the nature. My first dogs were German Shorthaired Pointer with which I participated in some field-trials. Having lost my dog, MICHEL VASSENET offered me a pointer TROLL OF LEMANIA, dog of exception. From time to time I took to the hunting the trainee of MICHEL VASSENET who didn't still have his driving licence and who swore only by the large quest and it did not change! It was EMMANUEL BOURGEOIS himself. Afterward I became delegated of the Pointer Club for the Rhone and I participated in the creation of the section "retrievers" in the SC Rhone of the ALPS. After a break for professional reasons, two years ago JEAN PIERRE MERCIER due to problems of health asked me to take the delegation of ISÈRE. Since I restarted my delegate activity and organized the TAN of SEMONS and the European Championship of Mountain together with the regional delegate of the SETTER CLUB RAYMOND GOMEZ.

You organized the European championship of Mountain, can you present this big competition ?

A remarkable demonstration, under a radiant sun, my thanks in the SETTER CLUB OF France to have welcomed us on their territory. Guides were perfected, all the competitors have I believe, brought together: thanks to JEAN BA and to the others. The judges were as high as their task, thanks to the competitors for their sportsmanship, dogs were deserving and the atmosphere was of the warmest throughout these two days.

According to you what have to be the qualities of a delegate?

- Be available for the club and for all the member demands
- Promote the hunting generally and the image of the Pointer
- Promote the reaches of puppies of the region, Help in search of puppies for the club members
- Establish regular contacts with the other clubs
- Get in touch regularly with the members
- Incite the owners of remarkable dogs to present them in exhibition as well as in field-trials
- Organize at least an annual demonstration
- Communicate the regional information
- Organize field-trials

I thank the Pointer Club.

NEWS

Trials: after a summer reserved for the young people, Autumn's season restarts: the ancients are still there and the young arrive, our Pointers are already in the top of classifications: congratulations to Damien Hisseli and Foxy du Bayon de Carnau for their title of Vice-champions of Europe on Mountain!

2 females will represent the race to the World Championship of GT : good luck to Etoile du Gouyre and Ekta de l'Azur et Or !

Expo: a novelty with the implementation of an exhibition challenge within the club.

Hunting: the temperatures begin to fall and the day makes more and more short, the migration is launched, all our Pointers are on the bridge for a new season.

The Pointer Club thanks the hunters' federations which agreed to publish the article of the President on the Pointer.

Communication: It's the first birthday of our newsletter and internet users are more and more numerous, the communication commission decided to reserve them a beautiful surprise by the end of the year

NEXT EVENTS

- European Championship of « Gibier Tiré » (Fired) on October 17th and 18th in Austria.
- World Championship Hunts Practice on October 25th, 26th and 27th in Italy
- French Open Of Autumn on October 26th and 27th in HERM (40)
- European Championship on Woodcock on December 20th and 21st in Montenegro.

Find all the trials or expos events on the Diary of the site.

The review of the 2nd half of the year was sent in September to all the members up to date of their subscription 2014.

In JANUARY, 2015: do not miss the next to newsletter!

PICTURE OF THE MONTH !

THANKS TO ALL PARTICIPANTS !

The election of the best photo for the next Newsletter is open on our Facebook page : one picture per participant to be sent to tpeltey@yahoo.fr
